Mike Dowling Acoustic Masterclass

By Richard Marek

This book and CD when combined with the DVD of the same name will supply a lifetime of material to advance my fingerstyle guitar playing. Mike is an excellent teacher and the songs are progressive in their difficulty. It covers a wide range of playing styles from bottleneck to hybrid and bare finger playing. The alternate tunings are something that did not interest me before, but after using this material it has opened up so many possibilities of guitar playing that I now embrace. In short I loved this course and will be working with it for years.

Terrific

By Seneca

You never like all of the selections on a DVD, but I'm pretty close to 100% on this one. Actually this is one of the best blues guitar teaching DVDs out there, (along with two others by Mr. Dowling) and I have a lot of 'em. The music is great, it's melodic, it's different, and it's a large step up from the usual. Several of these songs, written by Mr. Dowling, really are superb and a joy to play. It helps that he is an excellent teacher and clearly enjoys what he is doing. I have been looking for a way to tell him how much I have appreciated his efforts, and I hope he reads this review.

Excellent Piedmont Book

By Christoph Michel

This is a really good book of Piedmont style blues roots guitar. Not for beginners but if you work at it for a while you'll be able to play some really great tunes. He is an excellent teacher. Awesome style. These are songs your friends are not playing but wish they could. I love it.
