Before he was wicked!

Mia Brandt was at San Diego's Star Bar, which was the perfect hunting ground. With only one night before she ships out.....

"She wanted to feel normal in a world where IEDs, sand, and not normal were her everyday fare. Normal, and not alone. One of the soldiers here was about to volunteer to help her out with that project, even if he didn't know it. Yet."

Mia looks around the bar and sees Tag Johnson. She has found the chosen one. Or so she hopes. Mia is not a one night stand kind of gal, usually.

"When she shipped out tomorrow, she'd be one of the guys again. Tonight, however, she wanted to feel like a girl. Give herself a special treat."

Mia seemed so awkward when she was hitting on Tag. It was all very cute, in an odd sort of way. Mia accomplished her goal...a night of firsts with Tag before she had to ship out in the morning.

An enjoyable and fast paced read. I liked that a lot of the physicality was left to the imagination of the reader. With just the right amount of introduction to the characters and the author's writing style to garner interest from this reader.

Included in the prequel was the beginning chapters of *Wicked Secrets*, which provided further incentive to obtain the book and keep reading Mia and Tag's story.

Liked the storyline

This has a good story line by I thought it was a little too short. Wish I had gone a little farther with the main characters. It leaves you hanging and I don't like that.

VERY, VERY SHORT

By Avid Reader

This book is a little hard to review since the kindle book arrived with 395 pages and only 25% of it was this book. It was VERY short and over practically before it began.

Master Sergeant Mia Brandt has 8 hours before she has to report for deployment and she wants to make the most of every minute. She picks up Petty Officer Second Class Tag Johnson at a local bar, go to her hotel and 'get it on'. Very little detail of the evening, they topple into bed and suddenly she is getting dressed and leaving.

After that there is a sneak peak at 'Wicked Secrets' the following book about Mia and Tag. That sneak peak was 3 times as long as the book *Before He Was Wicked*. It was almost a book in itself and I didn't even feel like I had to go buy the rest of the book. I was just glad I didn't pay anything for this novella.
