Not stoked with previous owner/whoever got pee on it

By R B

Got this on Amazon because the school website was asking for ridiculous prices, was super stoked on how inexpensive it was and went for it. When it arrived I was initially impressed by the condition of the book FROM THE OUTSIDE as there were few markings and looked very promising. Then I opened it and the smell of cat piss nearly knocked me off my seat. I'm not even exaggerating. Once I stopped gagging I flipped through the pages. The information itself is relevant and updated, and the writing is interesting compared to other textbooks where their goal seems to be to lull you to sleep. HOWEVER I expected only a few markings from the previous owner. Nope. The owner(s) previous vandalized the book obscenely in select areas. They highlighted and marked in reckless abandon. The worst part is that they highlighted INCREDIBLY STUPID PARTS including but not limited to: entire pages, entire summaries, double explanations, and chapter titles. I'm disappointed and will have to explain to everyone in my class it wasn't me who did such highlighting. How shameful for me. I'm currently wallowing in semi pity but really should have known better. I'm keeping the book in my closet with a lot of air freshener.

Dreadfully dry, plain and boring!

By Jonathan

I don't even think they are trying to help you stay awake reading this text. The information is there, but presented in two straight, rarely interrupted, vertical columns of small dry text. Rare pictures or visual data, no study questions as u read the chapter, no indented space down the side of the text, for notes, summaries, or definitions. This is the complete info presented. And that's it. It would be interesting to see them engaging and therefore teaching the student, but I don't think they were trying to do that. They are just presenting the info.
