A gripping, clever story

By A Customer

I just read this book from cover to cover. It's strikingly suspenseful, and the author shows amazing skill in making a wild plot believable and scary. It reminds me of *The Manchurian Candidate*, but with a 2001 twist that could make any parent a little paranoid about the technology in their children's hands. The writing is vivid and brisk. This is the kind of book people reach for in airports right before they get on a plane -- and the kind that they hold on to and recommend to friends. It's several notches above any thrillers I've read in months!

CHECK YOUR KID'S VIDEO GAMES

By Michael Butts

Thom Racina, a master of what we affectionately call "fluff fiction", come up with an interesting premise here: a megalomaniac with a strong hatred of religion uses his video game, Practice Run, to brainwash teens to help eradicate important religious figures in an attempt to wipe God's influence off the face of the planet. Tyler Bryant has just married idealistic and impressionistic Quinn. It doesn't take long for her to suspect her husband in a series of hideous murders: a teen shoots an Archbishop at her confirmation and then shoots herself; a teen brutally attacks two door to door religious men, and then kills himself; and on and on. The

sole factor that connects them: they all played Practice Run. Add a heroic FBI investigator; the maniac's imprisoned half-brother, and a stoic friend, and Quinn is off to tell the world.

There are some cliché scenes, some inane dialogue, but Racina knows how to hook his reader and keep them involved. His books move fast, and I enjoy them.

Flawless storytelling from the author and I (the lucky reader) got a lot of goosebumps. A great read.
