The participants in the battle of Gallipoli tell the story of the failed offensive through contemporary accounts and memories recorded later in life. The bitter campaign against the Turks from April 1915 to January 1916 was ill-conceived, inadequately equipped and never likely to succeed. The bravery and resilience of the troops drawn from the United Kingdom, from the dominions of the Empire, from France and her African colonies, in the face of disease and violent death is shown in their letters, diaries and recorded memories which recall the reality of the campaign. This book provides an insight into the lives of the soldiers involved and an account of the doomed campaign.

good war writing

By ToilandTrust

great telling of the gallipoli campaign. steel's book focuses on the british role in the sequence of battles, giving the reader much information concerning both command decisions and troop experiences (the latter via letters home and diary entries). this truly is a wonderful "war book" in that it doesn't glorify war, but at the same time gives us a warranted respect for the sufferings of the warrior.

minute by minute

By Altug Yurttas

Like a real time correspondence .Book neatly tells what happened in that bloody period hour by hour with great details you wouldn't find anywhere else .Anyone should read this prior to visiting Dardanelles .You 'll appreciate the value of the soil you step on .
