DREAMING BIG: MY JOURNEY TO CONNECT INDIA BY SAM PITRODA, DAVID CHANOFF PDF

A young man from Titilagarh, Orissa, buoyed by nothing but dreams, boards a boat to America in 1964. There, in the land of opportunity, Satyanarayan Gangaram Pitroda strikes gold in the burgeoning tech space to become the American millionaire Sam Pitroda. Armed with global patents and a vision supported by Prime Minister Rajiv Gandhi, he vows to return home and fix India's telephone troubles.

Sam Pitroda became synonymous with the bright-yellow PCO/STD booths that sprang up across the country, and was dynamo in the Congress machinery in the 1980s. But his world came crashing down when he was dealt one blow after the other—a heart attack, false corruption charges and the assassination of his dear friend Rajiv Gandhi. To make matters worse, he realized that he had run out of money.

This is the astonishing and heart-warming story of how one man at the top hits rock bottom—only to rise again and make a bigger dent in the world.

Great book! Great Man!

By Amazon Customer

A highly inspirational journey of someone who had the courage to take very tall calls and deliver on them, multiple times. At a time when the world is facing unprecedented challenges, which will only grow in magnitude as our 21st century unfolds, finding solutions need an innovative approach! That's the way Sam Pitroda's life is showing us! Connecting moral responsibility, entrepreneurship and policy into a continuum that guides bold and inclusive action is what's needed. The life of Sam Pitroda, a true Gandhian and transformational leader who embraced the power of technology from the very early days of the digital revolution is a great example to follow!

Great Book

By Nagender R Madavaram

The book entitled "Dreaming Big: My Journey to Connect India" an autobiography of Satyanarayan Gangaram Pitroda a.k.a Sam Pitroda portrays India's journey to modern IT revolution. Pitroda is the father of telcom revolution in India who developed world-class infrastructure in telecommunications and introduced 'Make in India' concept in early 80's. His successful attempts to get ten million dollars software contract from GE paved a way for Indian software industry to reach to export 150 billion dollars worth of software in 2015.

India was greatly benefited by two NRIs. Mahatma Gandhi came from South Africa and led freedom movement. Pitroda came from the US, initiated technology revolution and made technology accessible to every Indian.

Pitroda is true believer in Gandhi philosophy and strictly implemented Gandhian style of management throughout his career. He brought revolutionary changes in telecom industry, stopped corruption, introduced egalitarian system. He also fought against ruthless autocratic officials and powerful lobbies who sold outdated telecom equipment to the department.

Pitroda broken social-rules and lived like a rebellion. Eating cow meet in those days was an adventurism. His love story reminds Raj Kapoor's Bollywood movies. He never allowed poverty to dominate either his thought process or his lifestyle.

Pitroda is architect of Right to Education Act which is as important as universal franchise. The book narrates his attempts to make education and technology available to disadvantaged sections in the society.

The book throws insights on Pitroda contribution to rural drinking water, literacy, immunization, and edible oils.

The book reveals rare glimpses of Rajiv Gandhi, his thrust to modernize India and finding out of the box solutions to chronic problems.

India passed through a very bad phase under the leadership of VP Singh. Irresponsibly, Singh initiated political disintegration, social conflicts and economic destruction. India was on verge of bankruptcy during this period. The same administration spread false rumors and caused health problems to Pitroda. It is very difficult to control tears while reading of Pitroda's days in the hospital after heart attack.

This book is worth to read to understand multi facet personality of Pitroda and his journey as a poor child, student, lover, husband, researcher, scientist, manager, CEO, social worker, crusader, reformer, philosopher, painter and great human being. In his life of roller coaster everyone connects somewhere in his journey.

... force behind the technological revolution in a big country like India was fascinating

By Dhruba Borthakur

The story of a person who started from a very meagre childhood to becoming a driving force behind the technological revolution in a big country like India was fascinating. I read this book even before it was released via amazon because a true-friend shipped me a physical copy of it the day it was released in Delhi. I did an 'all-nighter' to read it because it is not easy to put it down once you start reading it.

It tells the story of how to get stuff done, even when the odds against it are overwhelming. The piece that I really liked was that even before he became famous and influential, Sam 'decided' that he needs to meet the Prime Minister to explain his vision. To sell your vision, one should start at the 'top' and to execute one's vision successfully, one should start from the 'bottom'.

I worked at Sam's organization 'CDOT' in the 1990s and met Sam only once or twice when I worked there. I always wondered what his life story is, and this book told me all!
