Yikes - this looks daunting!

By R. Hitomi

As a beginning learner, I expected this book to be a bit more structured vs diving right into complex sentences and phrases.

For me personally, this book would have been more helpful to focus on everyday usage in the office place, as opposed to focusing on a specific business situation (financial turnaround).

For intermediate speakers already accustomed to the language, you may find this book useful. If you are just starting, look for something else to give you grounding before taking this book on. My two star rating is more my missed expectation and level of learning, vs what the book can deliver.
