The most up-to-date medical pharmacology review available

From the authors of Basic and Clinical Pharmacology, the leading pharmacology textbook, here is the newest edition of the best review book available for medical pharmacology course exams and board examinations. This skill-building guide comes with more than 1,000 questions and answers -- far more than most other pharmacology reviews -- and a chapter-based approach that facilitates use with course notes or larger texts.

Presented in full color and organized to match the syllabi of pharmacology courses, the book is highlighted by concise discussion of the major concepts that underlie basic pharmacology principles or specific drug groups, and learning aids that include numerous tables and figures, high-yield terms and definitions, summary tables, test-taking strategies, and two complete practice exams with answer explanations in the appendix.

- Delivers the most up-to-date information on all drugs, including retrovirals, immunologic agents, and chemotherapies.
- Includes two comprehensive 100-question examinations

Better than Big Katz for Med Students

By Brent Schnipke

For medical students, this book is significantly better than its counterpart, "Big Katzung." This version is more succinct and focuses on the clinically important concepts and drugs. The review questions are also great for assessing knowledge. There are occasionally subjects covered in "Big" Katzung that don't translate to the small version, so keep that in mind, but generally these are low yield. Overall, a better purchase than the big version for most pharmacology needs.

Good questions, but review is not quite as comprehensive ...

By Edward Kim

Good questions, but review is not quite as comprehensive as compared to LIR Pharmacology. If you don't have the time for Katzung's Basic and Clinical Pharmacology, LIR is a better bet. I wish that they had simply added the questions to the Basic and Clinical Pharmacology so I wouldn't have to buy this book for them and put out slightly more comprehensive review version with the same questions for those that are time-strapped.
