No Easy Hope (Surviving The Dead) By James N Cook, Try it as well as verify it.

NO EASY HOPE (SURVIVING THE DEAD) BY JAMES N COOK PDF

Eric Riordan was once a wealthy man leading a comfortable, easy life. Until one day Gabriel--his oldest friend, a Marine Corps veteran, and a former mercenary--told him how the world was going to end. He did his best to prepare. He thought he was ready for anything. He was wrong. As the dead rise up to devour the living, one man finds himself struggling to survive in the ruins of a shattered world. Alone, isolated, and facing starvation, his only chance is to flee to the Appalachians and join forces with Gabriel. But the journey will not be easy, and along the way his humanity, his will to live, and his very soul will be tested. This is the beginning. This is his story.

Suspense-free Zombie Apocalypse

By Peter Schaub

I had a really hard time getting into this book. It took me a while to figure out what the problem was, but once I did it seemed obvious. There are certain things that I enjoy reading and thinking about that makes the post-apocalyptic genre so appealing to me: men and women finding hidden skills and strength in themselves to overcome obstacles, scrounging for supplies and making do with unusual/broken gear, the threat of being outnumbered and poorly armed, and finally being faced with a poorly understood (or completely unknown) threat and trying to learn what in the world is happening all around you. The author of this book removes all of that very early in the book, and so what we're left with is a completely suspenseless description of someone's survival shelter, a fairly dry explanation of the zombie virus' effects, and a pretty cheesy bromance novel.

****minor spoilers****

Since both the main character and his friend, Gabriel, are extremely wealthy and forewarned of the outbreak, they have completely insulated themselves from its effects. They both have the time and resources to construct elaborate shelters and stock them with anything they could possibly need post-apocalypse. Also they are both extremely healthy, single and with no kids, so there are no physical threats that they really need to concern themselves with - they're never protecting anyone, or dealing with any real 'survival' issues. They also have all the weapons, food, tools and supplies to get them through the entire outbreak. Gabe even had foreknowledge of the attacks and had extensive training and expertise in fighting the undead, all of which he

was able to pass on to the main character in a lengthy email.

****end spoilers****

To me, this completely removes anything that is interesting or inspiring about a PA book. I'm not saying that the author needed to include an asthmatic, wheelchair-bound blind man in an effort to gin up the suspense. That would be ridiculous as well. But what makes these stories so fascinating is seeing how ordinary people respond to extraordinary challenges. A good example of this is the family living in the high-rise apartment building in the movie "28 Days Later". The father scrounged up some riot gear from somewhere, and they've blocked the bottom of the stairwell with furniture and debris (if I remember correctly). They have buckets and glasses on the roof to collect rainwater, and use Christmas lights to illuminate their flat and to alert other survivors of their presence. All of it is so powerful when you combine it with the fact that this is a regular guy and his teenage daughter doing their best to survive.

Hopefully my critique makes sense. There are other problems with his writing: multiple grammatical mistakes, describing mundane tasks in a step-by-step matter (do I really need to hear **exactly** how he gets his supplies into his bunker?), lots of extemporizing, that could have all been cleared up with a strong editor. But even after editing this book would still have zero suspense or adventure.

Great!

By Amazon Customer

When you pay \$2.99 for a book on Amazon you never know what you're going to get as far as quality, especially in this genre. I have to say that this was one of the MUCH better books, if not THE best, I have read in this price range since I started buying books for Kindle. I would recommend this book to anyone interested in zombie story-telling as an example of what can be done when you pay attention to detail (particularly pertaining to grammar and spelling) and have an actual story to tell, as opposed to simply finding new ways of describing killing zombies. This is a very good and well thought out book. Buy this book, I guarantee you will like it.

It's a good/okay read

By D.D.

I'm an avid reader of Z-books. If it has a reasonable length and is a reasonable price, I'll buy it. "Handbooks," novels, anthologies, you name it. That said, I've developed a taste for what I enjoy most, which sometimes makes it difficult to enjoy new authors.

I give this book a 3/5 because, by and large, the book focuses primarily on the emotions, love lives, and friendships of the characters. There was a minimum of actual Z-engagements. In addition, the main character's behavior seems unbelievable to me, unless he is the most altruistic individual one could hope to meet.

I'll probably purchase and read the second book; the framework has been laid for a novel more along the lines of what I'm accustomed to.

If you're the type who likes zombies but don't care for the gore or if you're a fan of Austen-esque descriptions of characters and the like, this book is for you.
