PORTRAIT PHOTOGRAPHY: 9 TIPS YOUR CAMERA MANUAL NEVER TOLD YOU ABOUT PORTRAIT PHOTOGRAPHY BY JAMES CARRON PDF

Want to Learn How to Take STUNNING Portraits Effortlessly?

Have you always loved the idea of portraiture photography, and yet never been able to make a portrait you were completely satisfied with? This book will provide the help you have been seeking, and more!

Here Is A Preview Of What You'll Learn Inside This Book...

- Different types of portraiture
- Photo history, and why you should be doing your research
- How to develop trust with your model
- What camera settings to use
- How to properly light a scene using natural, available, and studio controlled light
- What tools you can use to create any mood you want
- How to make the most of a pose
- How to take a successful self-portrait
- How to successfully photograph a group
- The basics of retouching
- Some more advanced techniques for those of you with prior experience or an adventurous spirit
- Techniques for use in more abstract or conceptual portraiture
- How to make a good print of your final image

This book will walk you through each of these procedures step by step, and with time, practice, and patience, you'll learn how to make stunning, successful portraits both you and your model will be very satisfied with.

Additionally, despite being more geared toward the beginning photographer, this book should provide more insight and a fresh lesson for every photographer, no matter their skill level.

For Beginners Only

By bc

This "book" is really just a pamphlet. It is 35 pages, not 44 pages as advertised.

Be aware - it does not contain even one photograph, chart or diagram, only text. Most topics are covered in two or three paragraphs. You get advice like, "Before taking a photo, even with just two to four people, make sure everyone is ready."

Chapter 2 is entitled "Establishing a Repertoire with Your Subject." Presumably, the author meant "rapport," not repertoire.

There is absolutely nothing here, except for the rankest of beginners. I sent mine back.

Happy with this book. Take great shots

By Allison Ricks

Portraiture 101. I got a new camera and I can't wait to take candid moments. This book is lovely. It's a step-by-step guide that beginners will appreciate. For camera settings, proper lighting. Also, there are advance techniques that will enhance your photograph. Satisfied. I can't wait to practice.

I would definitely convince my subjects on proper posing with what I learned from this. Increase your skill level by grabbing this copy. Thanks to the author. The book makes me happy.

Very informative

By Amy

While I don't own an exceptional camera or take portraits, it is always something I've been very interested in doing but unfortunately haven't found the time. With this book, anyone can take great portraits. This book has such great information on using your camera to the best of its ability, poses - or not, and how to edit your photos like a professional. I highly recommend this book to anyone just getting started.
