Short and Simple!

By Dany Stark

As a cultural club leader in my university, I sometimes find it very difficult to keep up with my team, do brainstorming or some creative games to keep them motivated! Fortunately, I got this book for free and really loved its precise writing. This team building book has some really cool team games and team activity management tips to keep a team active and get better results!

I'm really very happy reading this book. As a leader, I see myself challenging the pitfalls, overcoming them and get my team together and motivate them to work hard. Daniel Webb has reminded me about some of the key factors that should always be done right in order to make a team - "TEAM".. Thanks for this :)

Indepth info about the 'why' of team building.

By Nilah M

This book showed up while I was researching for community building exercises, and I quite liked its approach. It not just gives ample activities, but also a lot of relevant information about why activities are needed, what is the intent of such exercises, what kind of dynamics to expect and also what activities suit different kinds of personalities. Now that is a wealth of info. I enjoyed conducting the 'Who am I' activity. Look out for resource list too!
