Reading this publication with the title **The Great Depression: An Eyewitness History (Eyewitness History Series) By David F. Burg** will certainly let you recognize much more things.

From Library Journal

Burg (coauthor, *The World Almanac of the American Revolution*, Pharos, 1992) competently delivers a narrative summary and chronology of major events in the United States and throughout the world during the Depression. He offers seven chapters, each covering one or more years; brief contemporary quotations from politicians, journalists, authors, and advertisements; and 80 black-and-white photographs. The appendixes contain a selection of primary sources, mainly New Deal statutes and other documents, and capsule biographies. The focus is somewhat different from that of existing reference series such as Britannica's "Annals of America," which is stronger on primary sources, and Time-Life's "This Fabulous Century," which offers better photographs. More recent competition comes from Victor Bondi's *American Decades, 1930-1939* (Gale, 1995), which has a topical arrangement, a more attractive layout, and greater scope beyond politics but lacks the quotations. Given these choices, not to mention overlap with other types of reference books, this is an optional selection for school and college libraries. Robert F. Nardini, North Chichester, N.H.

From Booklist

Another volume in Facts On File's Eyewitness History series follows other similarly organized series entries, including ones on the Vietnam War, the women's suffrage movement, and the French Revolution. These Eyewitness books gather excerpts from a variety of primary sources--speeches, letters, narratives, newspaper accounts, and radio broadcast transcripts--to help readers get a feeling of how and why certain events took place and what it was like to live during each period. A wide range of contemporaneous events are included to provide a sense of historical context. A detailed chronology of each stage of the era is provided. (Pictures have been an especially valuable feature of the series, and 80 black-and-white photographs will be added to the finished work here.) Burg has written extensively on American history and gives here a sweeping view of the Great Depression, beginning with causal and catalytic events starting from the Treaty of Versailles and ending with effects and consequences that culminated with World War II. David Rouse

Review

"Their well-defined focus and easily digested format make them suitable for cover-to-cover reading as well as browsing and ready reference."

Eyewitness History is an interdisciplinary and multicultural series that reveals how significant events were seen and interpreted by people from all levels of society. Excerpts from primary sources -- memoirs, diaries, letters, newspapers, speeches, advertisements, and more -- provide a wide range of viewpoints and enhance a compelling narrative, prompting students to develop the critical-thinking skills that allow them to construct their own opinions about the people and their times. A Complete Perspective Each volume is a comprehensive and self-contained reference work that features: -- Hundreds of eyewitness accounts that bring history to life -- Essays starting each chapter, that provide historical context and that highlight major events and attitudes of the period -- Chronologies that provide a detailed historical perspective -- Contemporary illustrations and photographs -- Excerpts from relevant documents of the day -- Brief biographies of key individuals, personalizing historic events Some volumes also contain maps and graphs that provide visual context, helping students gain a richer understanding of historical events. A Rich Mosaic of Eyewitness Accounts from Past Eras Excellent for students and general readers, the Eyewitness History series deepens readers' understanding. Beginning with the prelude to this crisis immediately following the Treaty of Versailles and continuing to the emergence of another world war, The Great Depression collects the words and thoughts of those who experienced bank foreclosures, waited in front of soup kitchens, listened hopefully to fireside chats, and worked to build a stronger America with the New Deal.
