A must have for the avid witch hunter

By D. Lane

Despite the small size, this is an essential handbook into the thinking of a Witch Hunter for the warhammer roleplayer. It cleverly covers witch hunting tests and trials that ensuring that zealous witch hunting will never be far from paranoia. While not covering any particular warhammer rules this handbook will allow first and second edition witch hunters to carry on in their often over zealous hunt for Witches, Warlocks, Demons, Undead and anyone who may doubt the witch hunter's authority.

Witch Hunter's Handbook

By Richard Woodward

Mildly entertaining- journal style reading that won't change your gameplay. Might influence a gamemaster to throw one in a campaign as an NPC but nothing in here will be used as a resource during a game.
