It's been sad to read "christians" tear down this message

By Dig

A book and a message that changed my life years ago. It's been sad to read "christians" tear down this message, trying to hyper-critique the ways John shares stories from the Bible or how he speaks to men. Men all over the world found freedom to be themselves in their experience and relationship with God, to begin to actually walk with God, hear His voice and know His heart. I know men all over the U.S. who began to rise up to love their wives, find their calling, engage the lives of their kids, and begin to love the life God has given them and live it well! And thousands of families have also experienced so much good because of this.

If you're the type that feels it's your god-given duty to scour the texts of books to find all "the errors" and expose "heresy", I'm sure you can (or already have) gleefully torn away at John's message. But, honestly, I ask, "Really? Why not just become an IRS agent instead?" And, I say, "Get a life." Sincerely, I say, go get a life that worth's living! Stop hiding behind your computer or your pulpit or your religious duties or your secret addictions and find the wide open spaces of life!

The message of WAH, both in the book and in the retreats Ransomed Heart put on based on this message was an invitation for me to experience God in ways I never thought possible and to experience life in its fullness in ways I never thought possible. And not only was it an invitation, it was permission to finally live my life. Maybe that doesn't make sense to many, but it was a game-changer for me. After returning from a WAH retreat, my wife literally said to me, "What happened? You even look different." My life will never be the same. Nor will the life of my wife and my children.

Moving, speaks to the heart of a man

By J. Zimdars

I read a lot of books on theology and spirituality and this is easily the one that's most touched my heart. It's a beautifully written look at the fundamental desires we all have as men, how those are intrinsic to our creation

in the image of God, and how the fallen world (and especially modern culture) has wounded us and tries to keep us from living out that masculine calling. There is some neat (non-doctrinal) theology here most referring to Genesis and the creation. How Eve as the last thing created by God is the "crown of creation" and how the model of men's desire for Woman is a model for how He wants us to pursue Him. It's an easy read full of movie references, quotes and poetry that speak to the heart of a man. Can't recommend this enough for a Christian man who knows he was made for more than the culture tells him. Fathers and husbands (or those aspiring to be) will get the most out of this.

First half great, second half uncomfortable

By G. Dub

Okay, so this book started off great about the adventurous spirit of man. Awesome. I thought it really hit home in a lot of ways talking about how men want to live dangerously and adventurously and then tied it in religiously saying that we were designed that way. It was pretty compelling and helped me understand myself better. There are some cheesy parts but overall, the first half of the book was great.

Then, half way through the book, it takes this turn about men having issues from growing up and how we have these great wounds that need to be healed. It becomes quite sappy, very religious (uncomfortably so), and tries to convince you that you have some horrible wound that you can only cure by sobbing your eyes out and taking to God. Now, this might be great for a lot of men because this is a harsh world and many of us might have these issues. However, for someone like myself who had a wonderful upbringing, this second half of the book becomes quite uncomfortable and I'm unable to relate.

Maybe that was the whole point of the book and I didn't realize that before starting. Either way, it might be worthwhile to read just to get some perspective.
